

As a long-time resident of Albuquerque, New Mexico, I would be greatly dissappointed if K-LOVE (local 90.5 FM) were taken off the airways to make way for any LPFM station.

This station has been a blessing to our community. By providing positive and encouraging music, as well as unbiased news reporting, this broadcast sends an uplifting message in unsettling times.

If this broadcast is removed from the Albuquerque airways, positive 24-hour Christian music would be limited. Local Christian stations provide music, but in limited time-frames.

Removing this broadcast in favor of some other LPFM broadcast (I can't think of any talk or music format that isn't already provided in our area) would leave an irreplaceable gap in music choice for thousands of Albuquerque residents.
